DETAILED ACTION

Claims 1, 4-7, 10-13, 15-17 and 19 have been examined by Examiner Wood.

Claims 2-4, 8-9, 14, 18 and 20 have been cancelled by Applicant.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-20 are rejected under 35 U.S.C. 102(a) as being anticipated by **Aho** et al., "Compilers: Principals, Techniques, and Tools". For the sake of brevity, the rejection statements themselves will not be repeated here. Please refer to previous office action dated 24 May 2003.

Response to Arguments

3. Applicant's arguments filed 27 June 2003 have been fully considered but they are not persuasive. Applicant argued: ¹⁾ **Aho** does not appear to disclose a language-specific-rule table containing one or more predetermined rules as one or more language specific information analyzing functions and ²⁾ **Aho** does not suggest the feature of a readout unit which reads out. Upon reconsideration and analysis of the broadest reasonable claim language, the previous rejection still stands. First, as noted by the rejection of claim 1, **Aho** disclosed several rules of analyzing code (page 6, paragraph 4 with bulleted items). Furthermore, **Aho** disclosed type checking and storing rules in a

table (page 343-346). A symbol table is the result of language specific rules stored for later use of optimization and code compilation, this information/rules being readout in the future to perform operations. Second, a readout is disclosed by the fact that information in the table must be "readout" or "looked up" and be produced from the table for meaningful operations to be performed. These are the two central issues Applicant has raised, all other claims either being dependent or processing the same issue. Therefore, the rejections made final as stated above.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
